# Labour market statistics

## October 2010

**Date:** 13 October 2010 **Coverage:** United Kingdom **Theme:** Labour Market

## For June to August 2010:

The employment rate was 70.7 per cent and there were 29.16 million employed people.

The unemployment rate was 7.7 per cent and there were 2.45 million unemployed people.

The inactivity rate was 23.2 per cent and there were 9.28 million inactive people aged from 16 to 64.

Total pay (including bonuses) rose by 1.7 per cent on a year earlier.

Regular pay (excluding bonuses) rose by 2.0 per cent on a year earlier.

## Headline labour market indicators (seasonally adjusted), June to August 2010

	Numbe	er of people (thousands)	Rates (percentages)		
Labour Force Survey indicators (United Kingdom)	LatestChange since March toestimateMay 2010		Latest estimate	Change since March to May 2010	
Number in employment (aged 16+) and rate (aged 16 to 64)	29,158	178	70.7	0.2	
Unemployment (aged 16+)	2,448	-20	7.7	-0.1	
Inactivity (aged 16 to 64)	9,280	-66	23.2	-0.2	

Average Weekly Earnings (Great Britain)	Average weekly pay for August 2010 (£ sterling)	Annual growth rate: percentage change between Jun-Aug 2009 and Jun-Aug 2010		
Total pay (including bonuses)	451	1.7		
Regular pay (excluding bonuses)	428	2.0		

## For September 2010:

The number of people claiming Jobseeker's allowance (the Claimant count) was 1.47 million.

#### Claimant count estimates (seasonally adjusted), September 2010

	Number of pe	eople (thousands)	Rates (percentages)		
Jobseeker's allowance claimants	Latest estimate	Change since August 2010	Latest estimate	Change since August 2010	
(United Kingdom, aged 18+)	1,473.1	5.3	4.5	0.0	

## Summary of labour market statistics published on 13 October 2010

The **employment rate** for those aged from 16 to 64 for the three months to August 2010 was 70.7 per cent, up 0.2 on the quarter. The **number of people in employment aged 16 and over** increased by 178,000 on the quarter to reach 29.16 million. Employment is up 241,000 on the year but is 270,000 lower than two years previously. The number of men in employment increased by 132,000 on the quarter, to reach 15.62 million, while the number of women in employment increased by 46,000 on the quarter to reach 13.54 million. The quarterly increase in total employment was mainly driven by part-time workers, which increased by 143,000 on the quarter to reach 7.96 million, the highest figure since comparable records began in 1992. There were 1.14 million employees and self-employed people working part-time because they could not find a full-time job. This is the highest figure since comparable records began in 1992 and is up 65,000 on the quarter. The number of full-time workers increased by 35,000 on the quarter to reach 21.20 million.

The **inactivity rate** for those aged from 16 to 64 for the three months to August 2010 was 23.2 per cent, down 0.2 on the quarter. The **number of inactive people** aged from 16 to 64 fell by 66,000 over the quarter to reach 9.28 million. The number of people not active in the labour market because they were students fell by 47,000, to reach 2.21 million. The number of economically inactive people looking after the family or home fell by 44,000, to reach 2.28 million, the lowest figure since comparable records began in 1993.

The **unemployment rate** for the three months to August 2010 was 7.7 per cent, down 0.1 on the quarter. The **number of unemployed people** fell by 20,000 over the quarter to reach 2.45 million. Male unemployment fell by 56,000 on the quarter to reach 1.44 million but female unemployment increased by 36,000 on the quarter to reach 1.01 million.

The number of people claiming Jobseeker's Allowance (the **claimant count**) increased by 5,300 between August and September 2010 to reach 1.47 million. This is the second consecutive monthly increase in the number of claimants. The increase in the total claimant count was mainly due to a rise of 4,200 in the number of female claimants to reach 431,000. The number of male claimants increased by 1,100 to reach 1.04 million.

The number of **vacancies** for the three months to September 2010 was 459,000, down 30,000 over the quarter. The sector showing the largest quarterly fall was education where the number of vacancies fell by 17,000 to reach 32,000.

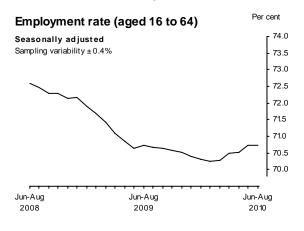

The **earnings annual growth rate for total pay** (including bonuses) was 1.7 per cent for the three months to August 2010, up from 1.3 per cent for the three months to July. The **earnings annual growth rate for regular pay** (excluding bonuses) was 2.0 per cent for the three months to August 2010, up from 1.6 per cent for the three months to July.

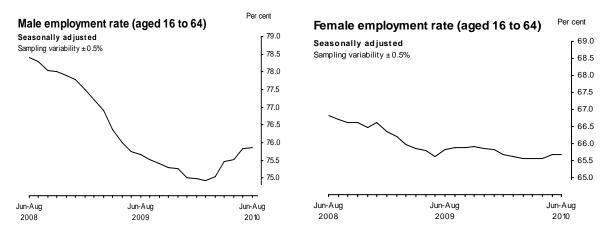

#### **Detailed Commentary**

### Employment (Tables 2 to 4, and 8)

The employment rate for those aged from 16 to 64 was 70.7 per cent in the three months to August 2010, up 0.2 percentage points on the three months to May 2010 but unchanged from a year earlier.

The employment rate for men aged from 16 to 64 was 75.8 per cent, up 0.4 percentage points on the previous quarter. The corresponding employment rate for women was 65.7 per cent, up 0.1 percentage point on the previous quarter.

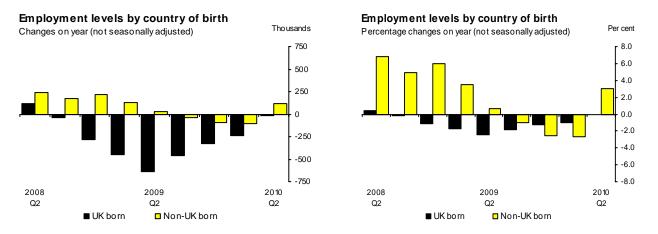

The number of people in employment was 29.16 million in the three months to August 2010, up 178,000 from the three months to May 2010 and up 241,000 on a year earlier. The number of people in full-time employment was 21.20 million in the three months to August 2010, up 35,000 from the three months to May 2010. Of this total, 13.58 million were men and 7.61 million were women. The number of people in part-time employment was 7.96 million in the three months to August 2010, up 143,000 from the three months to May 2010. Of this total, 2.03 million were men and 5.93 million were women.

The number of people in public sector employment was 6.05 million in June 2010, down 22,000 from March 2010. The number of people in private sector employment was 23.11 million, up 308,000 from March 2010.

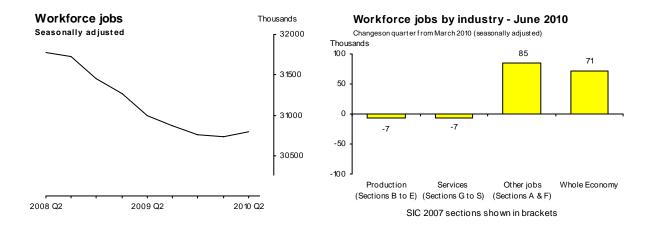

The number of UK born people in employment (not seasonally adjusted) was 25.08 million in the three months to June 2010, down 15,000 on a year earlier. The number of non-UK born people in employment (not seasonally adjusted) was 3.85 million, up 114,000 from a year earlier.

The employment rate for UK born people aged from 16 to 64 (not seasonally adjusted) was 70.9 per cent in the three months to June 2010, down 0.5 percentage points on a year earlier. The corresponding employment rate for non-UK born people was 66.5 per cent, up 0.5 percentage points on a year earlier.

## Jobs (tables 5 & 6)

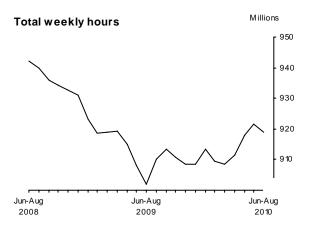

There were 30.80 million workforce jobs in June 2010, up 71,000 over the quarter but down 196,000 on a year earlier. The sector showing the largest increase in jobs over the quarter was construction which increased by 53,000.

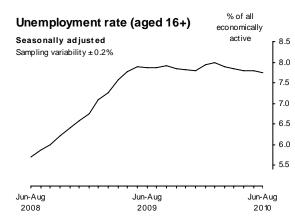

#### Actual hours worked (table 7)

Total hours worked per week were 918.8 million in the three months to August 2010, up 7.4 million from the three months to May 2010. Average weekly hours worked in the three months to August 2010 were 31.6, up 0.1 from the three months to May 2010.

### **Unemployment (table 9)**

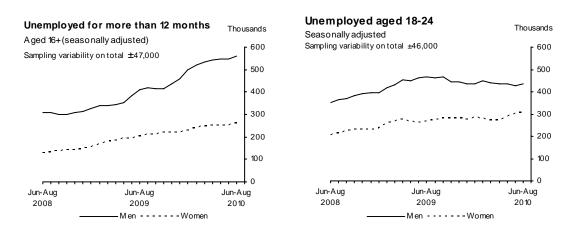

The unemployment rate was 7.7 per cent in the three months to August 2010, down 0.1 percentage point from the three months to May 2010 and from a year earlier.

The number of unemployed people was 2.45 million in the three months to August 2010, down 20,000 from the three months to May 2010 and down 23,000 from a year earlier. The number of unemployed men was 1.44 million in the three months to August 2010, down 56,000 from the three months to May 2010. The number of unemployed women was 1.01 million in the three months to August 2010, up 36,000 from the three months to May 2010.

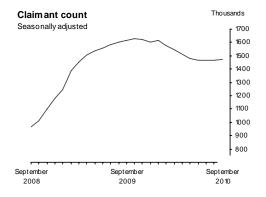

The number of people unemployed for over 12 months was 821,000 in the three months to August 2010, up 27,000 from the three months to May 2010. There were 742,000 unemployed 18 to 24 year olds in the three months to August 2010, up 35,000 from the three months to May 2010.

### Claimant Count (tables 10 and 11)

The claimant count in September 2010 was 1.47 million, up 5,300 on the previous month but down 144,100 on a year earlier. The claimant count rate was 4.5 per cent, unchanged on the previous month but down 0.4 percentage points from a year earlier. A comparison between the claimant count (which measures the number of people claiming Jobseeker's Allowance) and unemployment (which measures people who meet the internationally agreed definition of unemployment) is available from Annex 3 of the *Labour Market Overview* document at:

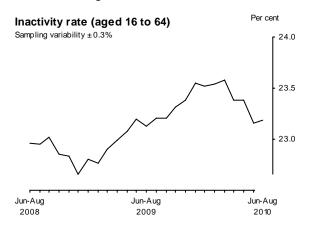

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1944

### Economic Inactivity (tables 12 to 14)

The economic inactivity rate for those aged from 16 to 64 was 23.2 per cent in the three months to August 2010, down 0.2 percentage points from the three months to May 2010 but up 0.1 percentage point on a year earlier. The number of economically inactive people aged from 16 to 64 decreased by 66,000 over the quarter, but increased by 73,000 over the year, to reach 9.28 million in the three months to August 2010.

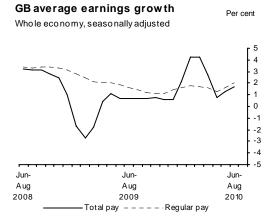

### GB average earnings (tables 15 to 16)

#### Whole economy earnings

Average total pay (including bonuses) was £451 per week in August 2010. In the three months to August 2010 total pay rose by 1.7 per cent on a year earlier, up 0.4 percentage points from the three months to July 2010.

Average regular pay (excluding bonuses) was £428 per week in August 2010. In the three months to August 2010 regular pay rose by 2.0 per cent on a year earlier, up 0.4 percentage points on the three months to July 2010.

## Private sector earnings

Average total pay (including bonuses) in the private sector was £447 per week in August 2010. In the three months to August 2010 total pay in the private sector rose by 1.2 per cent on a year earlier.

Average regular pay (excluding bonuses) in the private sector was £418 per week in August 2010. In the three months to August 2010 regular pay in the private sector rose by 1.7 per cent on a year earlier.

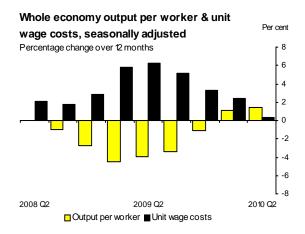

#### Public sector earnings

Average total pay (including bonuses) in the public sector was £463 per week in August 2010. In the three months to August 2010 total pay in the public sector rose by 2.9 per cent on a year earlier. Average total pay in the public sector, excluding financial services, was £457 per week in August 2010. In the three months to August 2010 total pay in the public sector, excluding financial services, rose by 1.9 per cent on a year earlier.

Average regular pay (excluding bonuses) in the public sector was £459 per week in August 2010. In the three months to August 2010 regular pay in the public sector rose by 2.2 per cent on a year earlier. Average regular pay in the public sector, excluding financial services, was £453 per week in August 2010. In the three months to August 2010 regular pay in the public sector, excluding financial services, rose by 1.6 per cent on a year earlier.

## Productivity and unit wage costs (table 17)

Whole economy output per worker was 1.4 per cent higher in the second quarter of 2010 compared with a year earlier. Whole economy unit wage costs rose by 0.3 per cent over the same period.

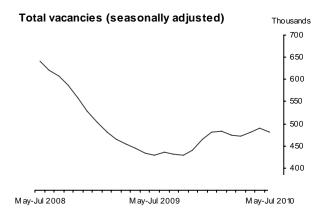

## Labour disputes (table 20)

In August 2010, there were 2,000 working days lost from six stoppages. In the twelve months to August 2010, there were 624,000 working days lost from 94 stoppages.

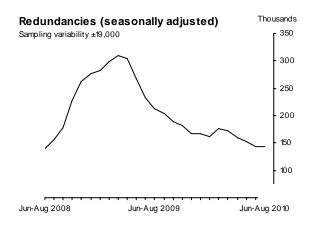

### Vacancies (tables 21 to 22)

There were 459,000 job vacancies in the three months to September 2010, down 30,000 from the three months to June 2010 but up 26,000 from a year earlier. There were 1.7 vacancies per 100 employee jobs, down 0.1 on the previous quarter but up 0.1 on the year.

#### Redundancies (tables 23 and 24)

In the three months to August 2010, 143,000 people had become redundant in the three months before the Labour Force Survey interviews, down 17,000 from the three months to May 2010 and down 69,000 from a year earlier. The redundancy rate was 5.8 per 1,000 employees, down 0.7 from the previous quarter and down 2.7 from a year earlier.

## Key out of work benefits (table 25)

In February 2010 the number of people claiming key out of work benefits (not seasonally adjusted) was 5.10 million, up 160,700 from February 2009.

## **Background Notes**

## This month's Statistical Bulletin

1. The Average Weekly Earnings (AWE) tables 15, 15(1) and 16 have been changed to show an improved industrial breakdown which follows the latest internationally agreed industrial classification, Standard Industrial Classification 2007 (SIC 2007). This brings the AWE tables into line with the workforce jobs, vacancies and redundancies tables which have already moved to a SIC 2007 basis. There has also been a review of the seasonal adjustment process for the AWE.

2. These developments have resulted in revisions to the AWE estimates back to the start of the series in January 2000. Further information is available in an article which can be found on the website at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=14015

3. A further article explaining the classification of sixth form and further education colleges (the majority of which have been classified to the public sector in the AWE since the June 2010 estimates first published in August 2010) has been published on the website today and is available at: *http://www.statistics.gov.uk/about/Methodology\_by\_theme/national\_accounts\_classifications.asp* 

4. A new Table 2 has been introduced showing an improved presentation of labour market status by age group. This new table shows employment, unemployment and economic inactivity by age group and it replaces the old tables 2 and 12(2) published in previous editions of this Statistical Bulletin, which showed employment by age and economic inactivity by age respectively. The old table 12(1), which shows economic activity by age, has been renumbered as Table 12.

## Planned changes in next month's Statistical Bulletin

5. There are no significant developments planned for next month's Statistical Bulletin.

## **Experimental statistics**

6. Experimental statistics are those which are in the testing phase and are not yet fully developed. Estimates of lone parent claimants of Jobseeker's Allowance, published at Table 10(1), are the only series in this Statistical Bulletin designated as experimental statistics. Further information on experimental statistics can be found on the website at:

http://www.statistics.gov.uk/cci/nugget.asp?id=173

## **Quality reporting**

7. A **Summary Quality Report** for this Statistical Bulletin can be found on the website at: *http://www.statistics.gov.uk/cci/article.asp?ID=1354* 

8. One indication of the reliability of the key indicators in this Statistical Bulletin can be obtained by monitoring the size of revisions. The tables below record the size and pattern of revisions over the last five years. These indicators only report summary measures for revisions. The revised data itself may be subject to sampling or other sources of error. The ONS standard presentation is to show five years worth of revisions (i.e. 60 observations for a monthly series, 20 for a quarterly series).

9. The first table covers Unemployment and Claimant Count data first published from October 2004 to September 2009. The employment rate revisions material shown in this table relate to the old working age employment rate which, since August 2010, has no longer been published in this Statistical Bulletin and it covers data first published from August 2004 to July 2009. It is not currently possible to produce revisions analysis for the employment rate for those aged from 16 to 64 as this is a new series published for the first time in August 2010. ONS will publish such an analysis once sufficient data allows. The second table covers Workforce Jobs data first published from September 2002 to September 2007. Spreadsheets giving revisions triangles of estimates and the calculations behind the averages in the tables are available on the National Statistics website at: *http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=1944*.

Key Indicator	Value in latest	Number of observations	Revisions between first publication and estimates one year later		
	period	(maximum 60)	Average over the last five years (mean revision)	Average over the last five years without regard to sign (average absolute revision)	
Employment rate (%)	70.7	60	0.00 (percentage points)	0.04 (percentage points)	
Unemployment rate (%)	7.7	60	0.01 (percentage points)	0.03 (percentage points)	
Claimant count (thousands)	1,473.1	60	1.14 (thousands)	4.15 (thousands)	

Key Indicator	Value in latest	Number of observations	Revisions between first put three years later (thousand	
	period	(maximum 20)		
			Average over the last five years (mean revision) to sign (average absolute revision)	
Workforce jobs (thousands)	30,801	20	324.4	366.8

A statistical test has been applied to the average revision to find out if the mean revision is statistically significantly different from zero; this is indicated by an asterisk (\*) in the above tables.

10. Labour market statistics are revised in line with the revisions policy, which is published on the website at:

## http://www.statistics.gov.uk/about/Methodology\_by\_theme/downloads/LM\_revisionspolicy.pdf

11. More information about the revisions material in this Statistical Bulletin can also be found on the website at: *http://www.statistics.gov.uk/cci/article.asp?ID*=793

## Sampling variability of Labour Force Survey estimates

12. The tables below show sampling variabilities, calculated on not seasonally adjusted data, for the Labour Force Survey. These sampling variability ranges represent '95 per cent confidence intervals'. It is expected that in 95 per cent of samples the range would contain the true value.

### Sampling variability of Labour Force Survey estimates: June to August 2010

		Sampling		Sampling variability		Sampling variability
		variability	Change on	of change	Change	of change
	Level	of level	quarter	on quarter	on year	on year
Employment (000s)	29,158	± 152	178	± 131	241	± 202
Employment rate (%)	70.7	$\pm0.4$	0.2	± 0.3	0.0	$\pm0.5$
Average weekly hours	31.6	$\pm 0.2$	0.1	± 0.2	0.3	± 0.2
Unemployment (000s)	2,448	± 80	-20	± 85	-23	± 110
Unemployment rate (%)	7.7	$\pm0.2$	-0.1	± 0.3	-0.1	$\pm0.3$
Economically active (000s)	31,607	± 140	158	±122	217	± 185
Economic activity rate (%)	76.8	$\pm 0.3$	0.2	± 0.3	-0.1	± 0.4
Economically Inactive (000s)	9,280	± 130	-66	± 113	73	± 175
Economic Inactivity rate (%)	23.2	$\pm 0.3$	-0.2	± 0.3	0.1	± 0.4
Redundancies (000s)	143	± 19	-17	± 27	-69	± 30

Sampling variability of Labour Force Survey estimates of employment by country of birth and nationality: April to June 2010

	Level	Sampling variability
UK born people in employment (000s)	25,080	± 170
UK born employment rate (%)	70.9	$\pm 0.4$
Non UK born people in employment (000s)	3,846	± 107
Non UK born employment rate (%)	66.5	± 1.1
UK nationals in employment (000s)	26,530	± 166
UK nationals employment rate (%)	70.6	± 0.4
Non UK nationals in employment (000s)	2,401	± 93
Non UK nationals employment rate (%)	66.9	± 1.5

	Employment level, aged 16 and over (thousands)	Unemployment level, aged 16 and over (thousands)	Economic activity level, aged 16 and over (thousands)	Economic inactivity level, aged 16 to 64 (thousands)	Employment rate, aged 16 to 64 (%)	Unemployment rate, aged 16 and over (%)
North East	± 29	± 17	± 27	± 32	± 1.7	± 1.3
North West	± 47	± 24	± 42	± 48	± 1.0	± 0.7
Yorkshire & The Humber	± 42	± 24	± 37	± 46	± 1.2	± 0.9
East Midlands	± 35	± 19	± 32	± 43	± 1.3	± 0.9
West Midlands	± 44	± 23	± 40	± 48	± 1.2	± 0.7
East	± 45	± 22	± 42	± 46	± 1.1	± 0.7
London	± 63	± 35	± 58	± 68	± 1.2	± 0.8
South East	± 55	± 27	± 50	± 59	± 0.9	± 0.6
South West	± 41	± 20	± 38	± 45	± 1.2	± 0.8
Wales	± 33	± 17	± 30	± 37	± 1.7	± 1.2
Scotland	± 41	± 23	± 38	± 46	± 1.2	± 0.9

## Sampling variability of regional Labour Force Survey estimates: June to August 2010

### Sampling variability of Vacancy Survey estimates

13. The sampling variability of the three month average vacancies level (95 per cent confidence interval) is around  $\pm$  1.5 per cent of that level. Further information on sampling variability for the vacancy survey is available from the *Report on the Triennial Review of the Vacancy Survey* which is available at:

http://www.statistics.gov.uk/downloads/theme\_other/VacancyTriennialReviewReport2009a.pdf

#### Seasonal adjustment

14. Like many economic indicators, the labour market is affected by factors that tend to occur at around the same time every year; for example school leavers entering the labour market in June and whether Easter falls in March or April. In order to compare movements other than annual changes in labour market statistics, such as since the previous quarter or since the previous month, the data are seasonally adjusted to remove the effects of seasonal factors and the arrangement of the calendar. All series in this Statistical Bulletin are seasonally adjusted except where otherwise stated.

Source: Labour Force Survey

Labour market statistics enquiries: labour.market@ons.gov.uk

1. The Labour Force Survey (LFS) is a survey of the population of private households, student halls of residence and NHS accommodation.

2. The headline employment rate is the number of people aged 16 to 64 in employment divided by the population aged 16 to 64.

3. The headline unemployment rate is the number of unemployed people (aged 16+) divided by the economically active population (aged 16+). The economically active population is defined as those in employment plus those who are unemployed.

4. The headline inactivity rate is the number of people aged 16 to 64 divided by the population aged 16 to 64.

#### Note on headline employment, unemployment and inactivity rates

The headline employment and inactivity rates are based on the population aged 16 to 64 but the headline unemployment rate is based on the economically active population aged 16 and over. The employment and inactivity rates for those aged 16 and over are affected by the inclusion of the retired population in the denominators and are therefore less meaningful than the rates for those aged from 16 to 64. However, for the unemployment rate for those aged 16 and over, no such effect occurs as the denominator for the unemployment rate is the economically active population which only includes people in work or actively seeking and able to work.

#### Note on headline employment, unemployment and inactivity levels

The headline employment and unemployment levels are for those aged 16 and over; they measure all people in work or actively seeking and able to work. However, the headline inactivity level is for those aged 16 to 64. The inactivity level for those aged 16 and over is less meaningful as it includes elderly people who have retired from the labour force.

Relationship between columns: 1= 2+3+4+5; 1=6+7; 2=8+9; 3=10+11; 13=15+17+18+19; 20=9+11; 14=13/2; 16=15/13; 22=21/20 Source: Labour Force Survey Labour market statistics enquiries: labour.market@ons.gov.uk

The split between full-time and part-time employment is based on respondents' self-classification.
 These series cover Employees and Self-employed only. These series include some temporary employees recorded in columns 13 to 19.
 The total includes those who did not give a reason for working part-time and it therefore does not equal the sum of columns 21, 23, 24 and 25.

Source: Labour Force Survey (LFS) and returns from public sector organisations Relationship between columns: 2 = 1/5\*100; 3 = 5-1; 4 = 3/5\*100 Enquiries 01633 456756

1. Estimates derived from public sector organisations.

2. Estimates for Northern Ireland included in the UK total are sourced from the Quarterly Employment Survey and are based on jobs rather than employees.

3. Royal Bank of Scotland Group plc and Lloyds Banking Group plc are classified to the public sector from 13 October 2008. They are therefore included in the public sector estimates from December 2008 onwards but not for earlier periods. Similarly, Northern Rock is classified to the public sector from 9 October 2007 and is therefore included in the public sector estimates from December 2007 onwards but not for earlier periods.

4. Estimated as the difference between LFS total employment and the data from public sector organisations.

5. LFS employment data for March refer to February-April, June refers to May-July, September refers to August-October and December refers to November-January.

More detailed estimates are available in the Public Sector Employment Statistical Bulletin at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13615

Source: returns from public sector organisations Enquiries 01633 456756

1. This series excludes locally engaged staff stationed outside the United Kingdom.

2. This series excludes the Northern Ireland Civil Service.

3. This series includes publicly owned financial corporations. Royal Bank of Scotland Group plc and Lloyds Banking Group plc are classified to the public sector from 13 October 2008. They are therefore included in the public sector estimates from December 2008 onwards but not for earlier periods. Similarly, Northern Rock is classified to the public sector from 9 October 2007 and is therefore included in the public sector estimates from December 2007 onwards but not for earlier periods.

4. This series does not exactly equal the sum of columns 1 to 4 and 6 to 9 because each series is independently seasonally adjusted.

More detailed estimates are available in the Public Sector Employment Statistical Bulletin at:

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=13615

Sources: Employer surveys, Labour Force Survey and administrative sources

United Kingdom (thousands), seasonally adjusted

1. Workforce Jobs figures are a measure of jobs rather than people. For this reason estimates of self-employment jobs and government supported trainee jobs differ from estimates of

people in self-employment and in government supported training and employment programmes shown at Table 3 of this Statistical Bulletin. 2. Due to a change in the method of compiling the data, there is currently a discontinuity between June and September 2008. These estimates do not include jobs with a contract of

employment as such jobs are recorded in the employee jobs series. 3. This series is not exclusively a public sector series as it includes some private sector jobs. See table 4 of this Statistical Bulletin for estimates of public and private sector employment.

1. Those aged 16 and over.

Source: Labour Force Survey Labour market statistics enquiries: labour.market@ons.gov.uk

United Kingdom, not seasonally adjusted

2. This series is the not seasonally adjusted equivalent of the total employment series MGRZ appearing at Table 1 of this Statistical Bulletin. The series does not equal the sum of the "UK \* and "Non-UK\* series because the total includes people who did not state their country of birth or nationality.

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and Sweden.
 Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovak Republic, Slovenia.

1. The claimant count measures the number of people claiming Jobseeker's Allowance.

Source: Jobcentre Plus administrative system

The level measures the number of claimants on the second Thursday of each month (the "count date").

The flows figures are collected for 4 or 5 week periods between count dates; the figures are then standardised to a  $4^{1}/_{3}$  week month. The levels and flows are independently seasonally adjusted. For these reasons, movements in the flows do not tally exactly with movements in the levels.

2. Denominator = Claimant count + Workforce jobs.

More detailed estimates are available from Nomis® at:

# Months where there are 5 weeks between count dates; the rest are 4 week periods.

Source: Jobcentre Plus administrative system and HM Revenue & Customs child benefit data

Labour market statistics enquiries: labour.market@ons.gov.uk

Lone Parents are defined as those claiming Child Benefit for at least one child aged under 16 at the Jobseeker's Allowance (JSA) count date (second Thursday of the month) who have their marital status recorded as single, widowed, divorced or separated.
 Age of youngest child relates to the age of the youngest child at the JSA count date.

3. These figures are experimental statistics and may be subject to retrospective changes as and when the Department for Work and Pensions (DWP) receive updated Child Benefit data.

4. The number of people claiming JSA in Great Britain. These figures are different from the figures at table 10 (series BCJA) which relate to the UK. Series BCJA (shown at Table 10) and BCJG (shown above) also include clerical claims which are not used in producing the subsequent lone parent series and are therefore slightly different to JSA figures published by the DWP on similar tables in their publications.

5. Some JSA claimants have their marital status coded as "not known". Such claimants who are claiming Child Benefit for at least one child aged under 16 may be lone parents but are not recorded as such in the above table.

The estimates for Lone Parent claimants shown in the above table are produced a month later than the Claimant Count estimates shown at table 10 of this Statistical Bulletin.

Further estimates of lone parents claiming JSA are available from DWP at

http://statistics.dwp.gov.uk/asd/

Relationship between columns: 2= 3+4+5; 6= 5/2; 8= 9+10+11; 12= 11/8.

1. The number of people claiming Jobseeker's Allowance.

Source: Jobcentre Plus administrative system Labour market statistics enquiries: labour.market@ons.gov.uk

2. Only computerised claims are analysed by age and duration on a monthly basis. The figures in column 2 onwards therefore differ from the figures in column 1 and in table 10. The differences

reflect numbers of clerically processed claims, which currently amount to less than 1 per cent of the total claimant count, and minor effects of rounding. # Months where there are 5 weeks between count dates. All the rest are 4 week periods.

# CLAIMANT COUNT 11(2) Claimant count<sup>1</sup> by age and duration<sup>2</sup>

Source: Labour Force Survey

Labour market statistics enquiries: labour.market@ons.gov.uk

1. Not in full-time education includes people in part-time education and/or some form of training. Estimates of the number of young people who are not in employment, education or training ("NEET") cannot therefore be derived from this table.

2. People in full-time education are employed if they have a part-time job or unemployed if they are looking for part-time employment.

3. Denominator = all persons in the relevant age group for economically active, total in employment and economically inactive; economically active for unemployment.

Relationship between columns: 1=3+5

1. Labour Force Survey is tabulated by region of residence.

2. Denominator = all persons aged 16 to 64.

3. Denominator = Total economically active.

4. Quarter on quarter changes at regional level are particularly subject to sampling variability and should be interpreted in the context of changes over several quarters rather than in isolation.

Further regional and local area labour market statistics are available at

Labour market statistics enquiries: labour.market@ons.gov.uk

1. Workforce jobs are tabulated by region of workplace. Claimant count is tabulated by region of claimant's residence.

2. HM Forces stationed abroad are included in the UK jobs estimates but not in the regional jobs estimates.

3. Count of claimants of Jobseeker's Allowance.

4. Denominator = Claimant count + Workforce jobs.

1. The UK employment rate shown in the lower part of the table - as published by the Office for National Statistics - is seasonally adjusted; all other employment rates are unadjusted.

2. All employment rates for EU countries published by EUROSTAT (including the rate for the UK) are based on the population aged 15-64. The rates for Canada and Japan are also based on the population aged 15-64, but the rate for the US is for those aged 16-64. The employment rate for the UK published by the Office for National Statistics is based on the population aged 16-64.

Sources: Eurostat, national statistical offices Labour market statistics enquiries: labour.market@ons.gov.uk

3. Unemployment rates published by EUROSTAT for most EU countries (but not for the UK), are calculated by extrapolating from the most recent LFS data using monthly registered unemployment data. A standard population basis (15-74) is used by EUROSTAT except for Spain, Italy and the UK (16-74). The unemployment rate for the US is based on those aged 16 and over, but the rates for Canada and Japan are for those aged 15 and over. All unemployment rates are seasonally adjusted.

4. The unemployment rate for the UK published by EUROSTAT is based on the population aged 16-74 but the unemployment rate for the UK published by the Office for National Statistics is based on those aged 16 and over. There are other minor definitional differences.

5. The "Total EU" series consist of all 27 EU countries. The Eurozone series consist of the following EU countries: Austria, Belgium, Cyprus, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, Netherlands, Portugal, Slovak Republic, Slovenia and Spain.

29	45	49	94	64	561	624	(p)	Aug 10

1. Estimates of working days lost and workers involved are shown to the nearest thousand. Unrounded estimates of less than 500 therefore round to zero.

2. Due to rounding the working days lost for the public and private sectors may not add up to the total working days lost.

3. The latest 12 month cumulative totals for the figures in these columns will not necessarily equal the sum of the 12 months as some disputes continue for over one month. These disputes appear in each month's data, but only once in the total.

4. These series exclude disputes which do not result in a stoppage of work, those involving fewer than ten workers or lasting less than one day unless the total number of working days lost in the dispute is 100 or more.

United Kingdom (seasonally adjusted)

Labour market statistics enquiries: labour.market@ons.gov.uk

The redundancy rate is the ratio of the redundancy level for the given quarter to the seasonally adjusted number of employees in the previous quarter, multiplied by 1,000.
 The redundancies levels as derived directly from the Labour Force Survey do not currently display seasonality. For this reason series BEAO is currently identical to the not seasonally adjusted series BEYV shown at Table 24.

Labour market statistics enquiries: labour.market@ons.gov.uk

1. The estimates in this table are for calendar quarters only whereas the estimates at Table 23 are for rolling three-monthly time periods.

2. The total series includes those people who did not state their industry. The series also includes SIC 2007 categories A (Agriculture, forestry and fishing), B (Mining and quarrying), D (Electricity, gas, etc.) and E (Water supply, sewerage, etc.). These sectors are not shown separately in this table as the sample size is too small to provide reliable estimates. See footnote 2 at Table 23.

3. Includes both public and private sectors.

4. Other Services are not shown separately in this table as the sample size is too small to provide reliable estimates.

Further redundancy estimates, including data for redundancy rates by industry, region, and age group and re-employment rates by age group are available at: www.statistics.gov.uk/STATBASE/Product.asp?vlnk=9474

Employment 8

Source: Dept. for Work & Pensions (DWP)

Labour market statistics enquiries: labour.market@ons.gov.uk

1. This table includes the key out of work statistical groups, showing all claimants. Carers, who are not subject to labour market activation policies in the same way as other groups, are not included.

2. Claimants have been assigned to a statistical group according to a hierarchy to avoid double counting of claimants. The order is shown in the table (ie, Jobseeker followed by incapacity benefits, etc.). For example, a person claiming both incapacity benefits and Lone Parent benefit will be recorded under the former but not the latter.

3. The estimates for Jobseekers claimants shown in this table are for Great Britain (GB) and are consistent with the not seasonally adjusted estimates for the United Kingdom shown at Table 10 (Claimant Count) of this Statistical Bulletin. However, the figures are different from the estimates of jobseekers claimants shown at Table 1.1 of the Dept. for Work & Pensions (DWP) Quarterly Statistical Summary. This is because of methodological differences between the Benefits estimates produced by the DWP and the Claimant Count estimates produced by the Office for National Statistics. 4. "Jobseekers" are recipients of Jobseeker's Allowance.

5. From November 2008 the "incapacity benefits group" includes Employment and Support Allowance (ESA). ESA replaced Incapacity Benefit and Income Support paid on the grounds of incapacity for new claims from 27 October 2008. Prior to this, the "incapacity benefits group" referred to claimants of Incapacity Benefit or Severe Disablement Allowance including people claiming Income Support on the grounds of incapacity.

6. "Lone parents" are single recipients of Income Support with a child under qualifying age.

7. "Other Income related" covers recipients of Income Support or Pension Credit who are not included in "incapacity benefits" or "Lone parents".

8. The proportions shown in this table are residence based proportions which show the number of claimants as a proportion of the resident population aged 16 to 64. The jobseeker proportions shown in this table are therefore not consistent with the not seasonally adjusted Claimant Count rate shown at Table 10 of this Statistical Bulletin as the denominator for the latter is workforce jobs plus Claimant Count.
